They work with parties to develop options, consider alternatives and come to a win-win solution. Mediators do not give advice, counsel or decide who is right or wrong. Services also include:

- Information and Referral. Depending upon the type of legal problem, applicants receive brief counsel and advice and, where appropriate, referral to another legal services provider, human services agency, or private attorney.
- Counseling Services. NHLC provides brief counseling services as appropriate.

When and where needed, NHLC staff perform "long" Land Title Searches; i.e., title searches that trace the conveyance history of a parcel from the date it became private property and up to the present time. A thorough Title Search integrates relevant conveyance, genealogical and legal research to arrive at an accurate history of the subject land. Land Title research is generally performed only in conjunction with and in support of an accepted Quiet Title case.
- Genealogical Research. When and where appropriate, NHLC also performs research for all cases in which a right by inheritance is asserted, including Land Title cases, cases in which traditional and customary practices within the family must be documented, and cases in which Native Hawaiians encounter difficulties documenting their blood quantum eligibility for the Department of Hawaiian Home Lands, Kamehameha Schools and similar programs.
